

# Current Status of Inventory by Category Report Guide

The Current Status of Inventory by Category report is a real time snapshot of the dollar value associated with your current inventory stock - broken down by product categories. This report gives you the total on hand quantities along with the corresponding cost and retail price for each category.

## When to create the report

We recommend reviewing this report at the end of each month for accounting purposes.

## How to create the report

1. From the SalonBiz/SpaBiz menu bar, click on the Report icon.
2. Double click on Current Status of Inventory by Category from the report side navigation. You will find it under the Inventory category.

## What it tells you

The report is separated into 6 areas:

- Category - your product categories
- On hand quantity - current inventory stock amount for the category listed
- Extended cost - total cost associated with the products in that category
- Extended retail - total retail dollars associated with the products in that category
- Profit % - percentage of profit that can be made on the products in that category
- Cost of goods % - COGS percentage for the products in that category

## How it's used

This report is used for analyzing your current inventory stock. It allows you to see how your inventory is divided and determine what areas can be altered if needed.
